I completed the necessary paperwork with Chase Bank to wire funds yesterday (Friday, Sept 18), however, funds will probably not be wired until Monday morning.

Jaimie -
I saw the email that the District Funds were received by the Club for the matching funding for P-1046 project.
Please see the email below from the ED of the not-for-profit that I'm working with giving us the wiring instructions for the project.
I understand that I'm personally responsible for managing the project and providing proof of receipts as well as project completion.
I'm working with David on site who will be building a photo story that I can present to our Club so show them what their money did.
Please "reply all" when the money has been wired so he knows when to look for it.
Thank you again for all the support!

Hi John,

Good day to you.

I just saw your new email. The internet in the entire area has been down for four days. Can you imagine that? Your email brings great news. Now we will we will be able to finish the job we started.

I hope the following will meet your reporting criteria. We will provide an expenditure spreadsheet. This spreadsheet will be somewhat detailed with paragraph and line numbers including the usage of other funds used to supplement the \$8.000 estimate. If you would like we can send the spreadsheet bi-weekly no matter the status. We will also provide you with photos of the ongoing project and also receipts with the report. John, please let me know if this will be sufficient.
