 Project Title: Power Dough Sheeter

Project Description

1. Describe the project. What was done, when, and where did project activities take place?
 The project for the Feed Me Hope Bakery was the addition of a power dough sheeter. It took place at the Downtown Soup Kitchen who feeds free lunches for the homeless masses. The sheeter was installed on Thursday, August 11, 2016 in the bakery located at the Downtown Soup Kitchen. On Friday, August 12, 2016 the sheeter was turned on and used for the first time. The sheeter prepares dough for bakery products that eliminates manual rolling of dough. The bakery products will be sold from this location to help fund this non-profit enterprise in addition to furnishing product for the free lunch program.

2. How many people benefited from this project? 100's

3. Who were the beneficiaries, how were they impacted by this project, and what humanitarian need was met?
 Beneficiaries were previously homeless and underprivileged Vocational students
 The people who benefit from this project are the bakery students and our community. Having our students learn on this type of equipment provides experience, knowledge and skills in order to further their education and develop the necessary skills to gain employment at a bakery within our community as well as make our bakery a success.

What did they do? Please give at least two examples, not including financial support provided to the project.
 Board approved the project. Met with the principals of the Downtown Soup Kitchen AKA the Feed me Hope Bakery, interviewed stakeholders, attended grand opening of the sheeter operation. Discussed having stakeholders attend our Rotary meeting to reflect on how this device via the Soup Kitchen had provided them the experience with an additional necessary skill set to obtain employment in the private sector. This project will serve as an into for additional humanitarian local assistance, particularly for the core Anchorage homeless

6. If a cooperating organization was involved, what was its role?
