Project Title: Muldoon Elementary Water Fountain Project

Project Description

1. Describe the project. What was done, when, and where did project activities take place?

This project replaced the existing water fountain at the Muldoon Elementary School with a newer one. The club bought the new fountain and worked with the YMCA to provide 500 water bottles with the logos of both non-profits emblazoned on them. The fountain was delivered in April and would be installed by the Anchorage School District after finishing some remodeling of the school. Additionally, we had a plaque made to depict the donor.

2. How many people benefited from this project? 500

3. Who were the beneficiaries, how were they impacted by this project, and what humanitarian need was met?

The school children benefited from this project. The old fountain needed upgrading because it broke frequently and its location next to the gymnasium as well as the supply of free water bottles would encourage the students to drink more water

4. How many Rotarians participated in the project? 25

5. What did they do? Please give at least two examples, not including financial support provided to the project.

Meeting with the school's authorities to determine need for the project
 Sourcing, ordering and delivery of the water fountain
 Sourcing, ordering and delivery of the water bottles
 Helping with creating and making the plaque

6. If a cooperating organization was involved, what was its role?
