

City of Breckenridge

March 31, 2017
DeWayne Adams, President
Breckenridge Rotary Club

Dewayne,

The total cost of the Breckenridge Skateboard Park is projected to be \$115,000. The Breckenridge Rotary Club and the Rotary Foundation generously agreed to contribute \$4,000 to the project. The City received checks from the Breckenridge Rotary Club in November, 2016 and January, 2017 for \$1,500 and \$500 respectively. All of the funds from the local club and from Rotary International can be considered to be contributed toward the concrete pad which cost \$10,553.17, as shown on the attached invoice.

For your information, a brief timeline of the project is as follows:

- Project approved in City of Breckenridge 2016-17 Budget on September 6, 2016
- Project awarded to American Ramp Company on February 7, 2017
- Construction of concrete pad began on March 15, 2017, completed March 23, 2017
- Installation of skateboard elements began March 28, 2017, completed March 31, 2017
- Ribbon cutting to be held on April 15, 2017 at 10:00 a.m.

Kids and adults have already been all over the project in the evenings, even as the workmen are completing their installation. This will be another well used addition to the city park, and it was made much easier with Rotary generosity and your leadership in helping the city obtain funding. Thank you for your efforts.

Best regards,

Andy McCuiston
City Manager
