Hi Summer,
So no lights, no electricity,
Do you want the container to be lined?

Regards,
Wade

Yes, a door and two windows would be ideal. We would like enough light to see books with no electricity. While there aren't specifics on the shelving, I imagine shelving around the interior perimeter about 5 feet high, unless you have other suggestions.

Thank you,

Summer

Hi Summer,

You would like a door and two windows?

Any idea of the size of shelving you want?

Regards,
Wade

Thank you for your prompt reply, Wade. I appreciate it very much. Would your company be able to install window and shelving for the container to serve as a library for the school? If so, do you have an estimate on this cost?

Morning Summer,
A 20' shipping container will cost you \$2,800
Transport and crane work to Lundazi Rd. would be in the range of \$300

Container solutions have 20' containers in stock.

Regards,
Wade

Hello, Daniel.

I am writing to inquire about estimated costs for a 20' shipping container modified to serve as a library for Nyamphande Orphanage and School. I am a member of the Rotary Club of Pocatello, ID in the USA, and we are working on a grant application to purchase this type of structure, since the school currently has no library. If it helps, the school is located at Plot 2256/7417 Lundazi Rd. off Leopards Hill outside Lusaka. If you could get back to me within a day or so, I would greatly appreciate it. If you have any questions, email is probably the most efficient means of communication given our significant time difference.

I look forward to hearing from you.

Sincerely,

Summer Jackman
