### District Grant # P-1334

Rotary Club: Loveland Rotary Club

Project Title: Tablets for literacy

### **Project Description:**

1. Briefly describe the project. What was done and where did the project activities take place? Explain how the beneficiaries and other community members were involved?

Chromebooks, iPad minis and charging stations were provided to four schools in Loveland with the goal to have every third grader be able to read at grade level. The elementary schools were: Monroe, Stansberry, Namaqua, and Mary Blair.

The school district was involved in the project by providing the literacy applications that are used by the students. The school district also provided teacher training and will provide maintenance of the computers. The school PTOs in each school provided support and funding for this project. Private donors in the community also contributed to the project.

- 2. How many Rotarians participated in this project? 6
- 3. What did they do? Please give at least two examples. The Loveland Rotary club literacy committee worked with the school district to determine which schools to support and what equipment to buy. They also gave presentations to the PTOs of the schools to gain their support. Once the computers were delivered the literacy committee went to the schools to make presentations of the computers in the classrooms.

- How many non-Rotarians benefited from this project?
   175 students will benefit each year that the computers are functioning which is estimated to be five to six years.
- 5. Who are the beneficiaries and what is the expected long-term community impact of this project?

The direct beneficiaries are the students themselves. However, the community will also benefit in the long term by having a higher literacy rate in the schools which will attract more businesses that will move to the areas because of better schools. In addition, the students will be able to get better jobs and will less likely to be in need of social services.

6. If a cooperating organization was involved, what was their role?

The Thompson School District was actively involved in helping to select the schools, determining the equipment to buy, training teachers in the use of the literacy applications and providing maintenance for the computers once they are in place.

#### 7. Income:

Income Source	Amount
Rotary club of Loveland	\$4,000
School PTOs	\$4,000
Private donations	\$8,907
Total Project Income	\$16,907

8. Expenditures: (number receipts starting with 1 and indicate a receipt # (s) for each expenditure) (Do not include travel expenses)

If international project convert amounts to	Receipt # (s)	Budgeted	Actual
US dollars		Amount	Amount
3 Chromebooks + EDU management licence	1	0	\$591
19 Chromebooks + EDU management licence	2	\$3,743	\$3,743
24 Chromebooks + EDU management license	3	\$4,728	\$4,728
3 charging carts	4	0	\$3,960
15 Apple iPad mini	5	0	\$3,885
Total project expenditures		\$8,471	\$16,970

9. Please explain any variance of more than 5% between the budgeted amount and the actual amount including the reason for the variance and why the alternative was chosen.

Originally the plan was to provide 43 Chromebooks to three schools. After talking to the school district and the PTOs we decided that there was a bigger need than we had anticipated including charging carts and another school that was lacking in computers. We brought this need to several local donors who stepped up with the additional funding.

10. Project score (5=strongly, 4=agree, 3= neutral, 2=disagree, 1=strongly disagree)

	Project Score	Comments
The overall project was successful	5	project was expanded
The grant process worked well	5	completed in a short time
My interaction with partner clubs was good	N/A	
We achieved the results we expected	5	exceeded expectations

- 11. Did you upload photos in your project on matchinggrants.org under the Photos tab? (If not, please do so) This will be done ASAP
- 12. What worked well on this project and why?

This project was successful because the school staff, students, PTOs and the school district all supported this project. It was essential to get this buy in at the beginning of the project.

13. What did not work well and how would you suggest improving it? It is hard to actually measure the impact of the project because there are many factors that influence the literacy scores of the students.

#### 14. How was this project publicized?

There was a story in the Loveland newspaper on the literacy project. The Rotary logo is on the computer log in screen. The literacy project is promoted to the community when we solict funds for the Duck Race which is where we get the money for the literacy project.
