

 **La Palma Intercommunity Hospital**

June 13, 2016

To Whom It May Concern:

The maternity department of La Palma Intercommunity Hospital will cooperate with the Buena Park Rotary Club's literacy project by disbursing small tote bags provided to the hospital for Buena Park parents of newborns. The tote bags will be filled with:

- American Academy of Pediatrics' book *Your Baby's First Year*
- A "touch and feel" book for parents to read to their infants
- Information about the importance of parents reading to their children and providing lively verbal interaction with them—both essential activities for future academic success.

Hospital staff will interact with Buena Park Rotary through BP Rotary Past President Beth Swift or other members, who will drop off tote bags as needed for distribution to new parents.

Sincerely,

Nancy Scheier  
\_Director Of Women's Health  
La Palma Intercommunity Hospital
