To Whom It May Concern:

The Buena Park Library is delighted to partner with the Buena Park Rotary Club's Literacy Project of distributing tote bags full of valuable information to Buena Park parents of newborns. The Library provides a brochure that includes information to encourage new parents to read to their child beginning at birth. The brochure also lists several early literacy storytime programs we have each week for babies and toddlers as we invite parents to take advantage of all of the free programs and services available to them at their local library.

The Buena Park Rotary Club's Literacy Project is a wonderful way to increase awareness for parents as they realize the important role they play in their child's early development. The Library is proud to be part of this very worthwhile program.

Sincerely,

Mary McCasland
