Brief Project Description:

For the last three years, the city of Santa Fe Springs and the Rotary club of SFS have donated school supplies and backpacks to local families in need. Our club collaborates with the city to reach more people. Our goal is to give away 200 backpacks and supplies to youths age 5-18. Families will be screened by the city to make sure they meet necessary criteria. Additional resources from other nonprofits will also be available when the backpacks are distributed.

1. Project Start and Ending Dates:

(Projects may not begin prior to the District receiving approval from TRF. Reimbursements for earlier expenses are not eligible. Projects must be completed by the end of each Rotary year.)

2. Project Location: Community International

(If the project is international, will there be a Rotary club from the other country involved? If so, explain how they will participate.)

6. Other Support:

(What other in-kind contributions, discounts or financial support are you getting for the project?)

Wal Mart and Target participate in this event and provide discounts for supplies

7. Other Involvement: *(What other groups or organizations will be involved and how will they be participating? Attach participation letters from any non-Rotarian organizations partnering in the project.)*

Letter from Santa Fe Springs Family and Human Resources included in the package.

8. Club Participation:

(Show active involvement of the Rotarians in your club. How many club members will participate and what will they do?)

Club participation includes purchasing school supplies, using a weekly meeting day to stuff the backpacks and sort them according to age group. Most members of the club will be present at the distribution center at the day of the giveaway and will setup and clean up the room. We expect 13-15 members for a total of 170 hours.

9. Who are the Beneficiaries:

(Who are you serving and how?)

We are serving low income children ages 5-18 from the City of Santa Fe Springs. Many of these children live in households that are unable to afford basic school supplies. The city has set income criteria guidelines to screen children in order to identify those who are most in need.

10. Lasting impacts on the community:

Children who receive these school supplies will have the opportunity to succeed in school because they'll have the necessary tools to keep up with their curriculum. Better success in school should also benefit their families.

14. Additional Comments:

The need in this community is great. Although only 17,000 people are residents of Santa Fe Springs, 26% of them are under the age of 18. 9% of people in this city live below the poverty line according to the US Census Bureau. In order for kids of these families to breakout of the cycle of poverty, it is imperative for them to have the resources necessary to succeed in school which will create opportunities that were not available to their families.

Please note that the city of Santa Fe Springs will donate \$3,500 to this project and will also provide some staff.
