

The Rotary Club of Star Valley  
District 5440  
Rotary Foundation Centennial Project Challenge  
2016-2017

In 2013, The Rotary Club of Star Valley established The Star Valley Women's Breast Care Fund. This fund provides free mammograms for Star Valley women in need. (put in an explanation/sentence about the club negotiating a discounted price)

Our Centennial Humanitarian Project goal is to assist other clubs develop a similar model with a minimum of two Rotary Clubs within our District. We are pledging \$500 of club funds and are requesting \$1000 in District matching funds to develop this Breast Care program in the other clubs. We will provide "how to" information, financial and logistic support and participation in each Club's efforts.

At this point, we have four Rotary Clubs in District 5440 showing interest in this project. All grant funds will be expended in helping these four clubs set up the program. Each participating Rotary club will match provided funding through community participation.

To monitor the effectiveness of participating clubs, we expect a quarterly report of progress. A time table of completion will be established by each participating Club at the time of acceptance of funds.

Budget:	\$ 500	Rotary Club of Star Valley
	<u>\$1000</u>	District match funds
	\$1500	
	\$ 300	To each participating club equal to the
	(X4 Clubs)	established cost of one mammogram. (This cost
	\$1200	varies greatly in each community.)
	\$ 300	Stays with Star Valley Rotary for Presentation and
		educational materials for each Club indicating
		interest
