

February 1, 2013

Dear Rotary Friends:

On behalf of the residents of Noah Homes, please accept my sincere thanks for creating a matching grant opportunity for their benefit. You are making a difference in your own community and will be present to see the changes your gift is making!

I have engaged an architect to re-work the storage areas, and design the two new free standing ADA compliant bathrooms. The project will incorporate as much environmentally green items as possible; solar tubes in the bathrooms, hand dryers to replace towels and windows for natural light sources. We are re-using existing doors and windows and even door frames! Nothing goes to waste at Noah Homes.

My apologies for not being there this morning; I committed to attending an East County Chamber of Commerce breakfast to keep Noah Homes name in the minds of community leaders and business owners to continue our mission. I so appreciate my Rotary friends and am proud to be partnering with you on such a worthwhile endeavor.

Please ask Kim about the shopping process she has helped develop. If you want to know why I had to move forward with the remodel, Kim is the culprit – in a good way of course! Her efforts in partnering with Feeding America, Food Banks and local stores has saved Noah Homes more than 40% in food and household items, and we now take delivery by the pallet at huge cost savings.

Noah Homes functions as a team, and we need every player to lend a hand. My thanks also to Jeff and Fern Hall for the assistance with eye appointments and glasses. Our House Managers are in the process of assessing the needs of our residents now.

Looking forward to seeing you next week.

Molly
