

How *you* can help support your local law enforcement officers!

Our law enforcement officers are at risk everyday to make sure we are safe. If you would like to show your appreciation for their sacrifice, please consider sponsoring a law enforcement officer in your area. It is vital that he or she attend this life-saving training from Colonel Grossman.

We are attempting to locate businesses (churches, individuals, etc) that would show their support for the police by making a donation of any size.

By making the training free, we will be able to help officers who might not otherwise be able to receive such training.
