Project Title: Equipment for the new building at the Poudre Learning Center
Project Description:

- 1. Briefly describe the project. What was or will be done and where did or will the project activities take place? Explain how the beneficiaries and other community members were or will be involved?
 - The Four Greeley Rotary Clubs used their Centennial Grants to provide tables and audio-visual equipment for the new educational facility at the Poudre Learning Center. The tables have been purchased, are paid for and in storage waiting for use in the new building. A projector and large screen have been ordered and the screen has been delivered. The projector has not been received. No billing has been received for the projector equipment. We expect delivery of the projector within the next week. We should then be able to finalize these three projects.
- 2. How many Rotarians participated in this project? (estimate if progress report) 20-25
- 3. What did or will they do? Please give at least two examples.

The Chair Person of the Steering Committee and most of the Committee members are Rotarians. This committee has the responsibility to oversee the Building development.

The tables, carts and projector equipment was done by Rotarians from the four clubs working with the PLC staff. All this was planned by the members of the WCS Committee which currently has about 15 active members.

- 4. How many non-Rotarians benefited from this project? (estimate if progress report) _____

 The entire population of Northern Colorado will be able to benefit from these of the PLC in its education programs. In the past year, there have been over 20,000 visitors to the site.
- 5. Who are the beneficiaries and what is or will be the expected long-term community impact of this project?

The beneficiaries are people who have an interest in the outdoors. People with children having a place the family can learn together. This mot only an educational opportunity but is creating a community effort to expand and make more people aware of the opportunities.
