Rotary Club: Craig(Moffat County)

Project Title: Honduras Solar Light Project

### Project Description:

1. Briefly describe the project. What was or will be done and where did or will the project activities take place? Explain how the beneficiaries and other community members were or will be involved?

We were going to have solar panels installed on four schools in the Lancetilla Botanical gardens area of northern Honduras. We were able to actually run electricity to the school closest to the gardens and installed solar panels on the other three schools. We also had lights, ceiling fans and electrical outlets installed as well. The panels and power was installed by the father of a teacher from the Eaton Co school district. He used the families of students at the schools as helpers.

2. How many Rotarians participated in this project? (estimate if progress report) 2
3. What did or will they do? Please give at least two examples. We coordinated the purchase of supplies and made that the project happened in a timely matter.

4. How many non-Rotarians benefited from this project? (estimate if progress report) 500

5. Who are the beneficiaries and what is or will be the expected long-term community impact of this project?

The students, teachers and the students families are the beneficiaries. The impact is that school can now occur for longer periods of time because it will not be stopped due to lack of sunlight. The teachers and students will also now have the ability to use anything that needs power
