

District Grant Report

Rotary Club: Irvine Rotary Club

Project Title: Backpack Project – Boys and Girls Club of Central Orange Coast/The Irvine Rotary Club

Progress Report Final Report

1. Briefly describe the project. What was done, when and where did project activities take place, and who were the beneficiaries?
 This is a community service project focused on school children from low-income families. The Irvine Rotary Club actively participated in the assembly of school backpacks. Each backpack was filled with essential school supplies for each student. We feel that the project provides these students with the support that they may not otherwise have due to their socio-economic positions. Each student will have the confidence to begin the school year and succeed.
2. How many Rotarians participated in the project?
 75 Rotarians (membership in July 2017). We had all members participate in the assembly or distribution of the backpacks.
3. What did they do? Please give at least two examples.
 We had all members participate in the assembly of the backpacks at one of our Club's meeting's. Once assembled we had 8 members assist in the distribution of the backpacks to the students at the main facility.
4. How many non-Rotarians benefited from this project?
 The project benefited 200 students.
5. What are the expected long-term community impacts of the project?
 We expect that the backpacks provide the students with the necessary tools to succeed in their coursework through out the school year. Furthermore, the assistance to youth education has a significant impact to youth education, which has been found to support the community economically.
6. If a cooperating organization was involved, what was its role?
 Several other organizations participated in the overall project with the Boys and Girls Club. The Irvine Rotary Club's project was independent of other organizations. The Irvine Rotary Club only worked directly with the Boys and Girls Club.
