RE: Matching Grant for Garden Tower 2 Pilot Project

Dear Mr. Bates, Jr.:

This correspondence serves to confirm that we have received two checks from the Burleson Area Mid-day Rotary. One check in the amount of \$1,500 was received on Jan. 9, 2018 and was used for the purchase of Garden Tower 2 equipment and plants. (Please see attached file titled, "[https_wellssuite.wellsfargo.pdf](https://wellssuite.wellsfargo.pdf)".) Here are some pictures of the equipment and the plants that were purchased with these funds.

An additional check in the amount of \$1,500 and dated 04.03.2018 was received yesterday and we are in the process of purchasing additional Garden Tower 2 equipment for the Taylor Elementary School Garden Tower 2 Pilot Project. "Please see attached file titled, "0845_001.pdf", attached Purchase Order # 9601800001, and attached correspondence from Garden Tower Customer Service confirming shipment of the Garden Tower Purchases.

The Burleson Independent School District is most appreciative of these generous donations from the Burleson Area Mid-day Rotary Club and Rotary International. These Garden Towers will build student and community awareness of the connection between healthy food choices and student achievement. In addition, our students will learn about the Science and the Math associated with growing gardens and sustainable food choices. We are very, very grateful for all that the Burleson Area Mid-day Rotary Club does to help our community and facilitate the growth of our students.

Thank you,

A handwritten signature in cursive script that reads "Leslie K. Bender Jutzi".
