

District Grant Report

Rotary Club: Rotary Club of Huntington Beach

Project Title: Westmont Elementary School

Progress Report Final Report

1. Briefly describe the project. What was done, when and where did project activities take place, and who were the beneficiaries?
 A kiln was purchased for Westmont Elementary School. The Principal and Teachers at Westmont believe that this kiln to make ceramic projects would benefit all Students. They desire to intertwine the arts into the students learning and the kiln will allow Students of all grade levels to learn and explore using clay as a medium.
 Beneficiaries of the kiln will be Westmont Elementary Students and their parents. The students will develop their creative side while providing their families with a lasting treasure the Students made just for them.

2. How many Rotarians participated in the project?
 Rotarians were to be involved on a rotational cycle where they would set up the kiln and then fire it up with the Student's work. Due to unforeseen circumstances, the kiln will not be able to be installed this Rotarian Year. Please see the attached email from the Principal of Westmont Elementary School.

3. What did they do? Please give at least two examples.
 Please see the response to Question 2. Our Rotarian Club will be involved with helping the Student's with the kiln and their artwork once the kiln is installed.

4. How many non-Rotarians benefited from this project?
 All Students from Westmont Elementary School will benefit from use of the kiln.

5. What are the expected long-term community impacts of the project?
 By providing the kiln for Westmont Elementary, a good relationship will be developed between the Students and their families in the Westmont Community and Rotary.

6. If a cooperating organization was involved, what was its role?
 No cooperating organization was involved other than Westmont Elementary School.

Financial Report – Be sure that Income equals Expenditures!

7. Income	Amount
1. District Grant funds approved by the District	\$2,215.00
2. Club contribution	\$2,124.82
3. Other funding (specify)	
Total Project Income	\$4,339.82

8. Expenditures - please be specific and add lines as needed - receipts must be attached	
1. One electronic kiln per P.O. No. M38R0707 dated 9/4/18.	\$4,339.82
2.	
3.	
4.	
5.	
6.	
Total Project Expenditures	\$4,339.82

9. By signing this report, I confirm that to the best of my knowledge these District Grant funds were spent only for eligible items in accordance with Trustee-approved guidelines, and that all of the information contained herein is true and accurate. Receipts for all grant-funded expenditures have been provided to the district. I also understand that all photographs submitted in connection with this report will become the property of RI and will not be returned. I warrant that I own all rights in the photographs, including copyright, and hereby grant RI and TRF a royalty free irrevocable license to use the photographs now or at any time in the future, throughout the world in any manner it

so chooses and in any medium now known or later developed. This includes the right to modify the photograph(s) as necessary in RI's sole discretion. This also includes, without limitation, use on or in the web sites, magazines, brochures, pamphlets, exhibitions and any other promotional materials of RI and TRF.

Dick,

We just found out the kiln arrived in the warehouse at the beginning of February. Before we placed the order we had requested the kiln be delivered to Sun View to be used this year knowing that the required voltage would have to be addressed. Our facilities department made the decision to wait for the kiln to arrive before installing the needed voltage. As time went by and we got closer to moving back to Westmont it was felt that it would not make sense to install it at Sun View(our interim campus) and then move it several months later. The whole situation is unique and not one I have dealt with before. I think the mix up in our purchasing department holding the order for so long and then the long order time with the manufacturer and then the short time before moving back has made having the kiln this year nonexistent. It's embarrassing on our part to not have been able to start using this expensive and thoughtful donation. I'm so sorry that you even have to ask.

If you need me to explain to someone what happened to the kiln this year I would be happy to. Please know that your generous donation will still be used with your participation once we get it to its final destination. I have seen the location it will be installed at Westmont and have been assured the voltage has already been taken care of. We want to start using it as soon as possible.

Again, I am so sorry this has turned into such an ordeal. We really do appreciate your support this year.

Best,

Sue
