Project Title: CPS Family Visitation Rooms

Progress Report Final Report

Project Description

1. Briefly describe the project. What was done, when and where did project activities take place, and who were the beneficiaries?

This project involved decorating and furnishing the CPS visitation rooms in Kingman, AZ. The project provided furniture, floor coverings, wall coverings and paint. In addition the project provided some games and activities that the parents and children can do together in support of the program's goals. The rooms now provide a more effective setting for bringing parents and their children back together

2. How many Rotarians participated in the project? 10

3. What did they do? Please give at least two examples.

The Rotarians cleaned and repainted walls. They ordered furniture and placed it in the rooms. They put wall murals up in some rooms. They were able to secure several donations, including computers for the rooms.

4. How many non-Rotarians benefited from this project? Over 100

5. What are the expected long-term community impacts of the project?

The visitation rooms are used daily and are important to providing a place where parents can learn how to interact with their children. The children are in a less sterile and office-like environment where there is less stress and distraction. The impact of this will be seen until the rooms are no longer used.

6. If a cooperating organization was involved, what was its role?

The Kingman Rotary Club provided funds and some labor to complete the project.

Financial Report (District must retain receipts of all expenditures)
