

The Rotary Club of Sun City West

Press Release – Dictionaries Delivered

Rotarians from The Rotary Club of Sun City West, embodied with the President's motto "It Works to Work Together," hit the streets this week with their dictionaries in hand for local third grade students.

They delivered over 2,400 dictionaries to 26 local schools (7 of which are within The Apache Nation). To date the Rotary club has delivered over 15,000 dictionaries to local third grade students.

While many of the students have siblings who have been recipients in previous years many were completely surprised at receiving their very own dictionary. All were very appreciative of the Rotary Club for giving them a dictionary for their own use.

Prior to handing out the dictionaries to the students a Rotarian gives a short presentation about Rotary and the Project. During the presentation highlights about the good that Rotary does throughout the world are given. Also an explanation that the dictionary belongs to each student and as such they should put their name in the space provided inside the front flap! The eagerness and appreciation was border line overwhelming!

One of the many highlights of the event was when Centenarian and SCW Rotarian Fred Hafner handed out dictionaries at the Paradise Charter School. Fred is now 101 years young!

If you would like to become a member of The Rotary Club of Sun City West or would like to contribute, please see below:
