

Rotary Completes Senior Center Upgrades

The Rotary Club of Townsend has completed several upgrades to the Senior Center on Second Street. The inside of the Center has received two coats of paint, the window and door trim have been painted, new entry mats have been purchased, new white boards have been purchased to replace old chalkboards, and finally 40 new thickly padded vinyl-covered chairs has been installed to replace the old fabric-covered worn out chairs that do not comply with new sanitary requirements for COVID-19.

The \$7,000+ project was completed with financial help from MT Rotary District 5390, the local Rotary Club, the Broadwater Community Foundation, the Broadwater County Development Corporation, and donations from Rotary members. Special thanks to all the Rotarians, their spouses, and the Interact Club students that put in many hours completing the work needed.
