The Wagner Rotary Club sees the need for renovations to the baseball fields for the youth of our community. Being situated on an indian reservation and in an area where there is concern of crime and drug use, we want to provide a safe place for children to develop healthy habits and to encourage families to spend time together. This baseball park hosts several different age teams throughout the summer baseball season through the local little league organization and the local Boys & Girls Club. Our project will provide a much needed shade over the existing bleacher area for spectators and other youth during baseball games and practices. This shaded bleacher area will improve the visual attractiveness of the baseball park and our planned project will also compliment other planned renovations to the existing ball field by the local little league group. It is our hope that by providing this shade/shelter it will let the youth of our community know how proud we are of them and instill pride in themselves as they play ball for the crowd of spectators.
