Dear Mr. Young,

The South Dakota Discovery Center (SDDC) is extremely pleased and excited that the Pierre-Fort Pierre Rotary Club has committed to be the lead organization in building the Rotary Environmental Education TreeHouse at the SD Discovery Center.

SDDC agrees to work in partnership with the Rotary Lead Committee from beginning to end of this project. I, as executive director, will participate on the lead committee and have open communication with the Rotary president, board of directors and other committees to best support the work of this project.

The SD Discovery Center is located in a City of Pierre owned building, so we will be responsible for assuring that the City is knowledgeable of the project and that all city rules are followed throughout the project.

We commit to using all reasonable resources to complete and promote the project. Once complete, it will be the responsibility of the SD Discovery Center to promote on-going use of the treehouse and to maintain the exhibit in a safe and professional manor.

The staff and board of SDDC are grateful to Rotary District 5610 for your consideration of the Pierre-Fort Pierre Rotary Club's District Grant application.

Sincerely,

Kristie Maher
