

Pedro Vásquez Ortiz is 39 years old. Lives at Jicaro, a town of the department El Progreso in Guatemala.

Pedro lost his legs after a terrible accident with electricity when he was 33 years. He was working when this happened.

He has 10 siblings and 3 children. He is happily married and enjoys spending time with the family and watching soccer games.

Pedro goes to therapy at least 2 times a month.

He is now a hair stylist and also repairs shoes. Pedro had to learn new occupations, but he expressed that likes having a job, which is a blessing from God.

Pedro is very involved in his community. He has been helping identifying people that are in need of mobility devices from canes to wheelchairs and PETs from el Jicaro. On July 2013 Pedro got a sport chair, and is learning wheelchair skills. He saw in that distribution that other people got PETs, so he requested for one to.

Pedro is currently using his PET to go to work, do errands and thanks the donors “Anchorage East Rotary Club” for providing the funding when it was so needed.
