2. Project Description

Describe the project, its location, and its objectives. Describe how the project will benefit the community and/or improve the lives of the less fortunate. Also include sustainability elements.

This may be the same as in matchinggrants.org but in many cases may have additional information. Information may be included in this request that is not appropriate to publicly display as when this report is uploaded to the website, access can be restricted to only those people associated with this project.

Literacy has been identified as a community priority in Sioux City, Iowa, specifically, a report from the Sioux City Public School System identified that fewer than 20% of pre-school children who were on their way to Kindergarten, were fully prepared to learn. Knowing this, a collaborative group of organizations that have come together to support brain development amongst the 0 to 3 age group. It is shown that 95% of the child's brain is formed in the first six years of life and a child's experiences irreversibly affect how the brain develops-for better or worse. The Rotary Club of Sioux City is proposing to install two story walks along popular trails to encourage parents/caregivers to include language and literacy development as they use these paths with young children. The funds will be used to purchase the signboards themselves. These signboards, spaced along a walking path, will include single pages from children's story books that adults can read to very young children or have children read to them as they stroll down the path. The story pages will be in both English and Spanish. Each of the signboards will include a sticker that identifies that these are a project of the Rotary Club of Sioux City with the Rotary International emblem. Rotary club members will be engaged during the installation of the storyboards and in maintaining them over the years. Our intent is to install one in summer of 2021 and then a second one in the summer of 2022. In following years Sioux City Rotary will continue to support this project by updating the story pages contained in the story walk on a monthly basis. One specific goal of this project is to provide an activity, that is accessible to all and supports adult/child interactions, while supporting the brain development, education and literacy.

Grant Application for Rotary District 5610 District Grant # P-5432P-5432

ESTIMATED START DATE OF PROJECT: June 15, 2021

ESTIMATED COMPLETION DATE: 09/01/2022

3. Describe non-financial participation by Rotarians in the project (i.e., Rotarian activities).

This will be completed as a club project. The labor involved with the installation of these Story Boards will be provided by Sioux City Rotary members. In addition to this, continued updating of the stories on the boards will be done in cooperation with Rotary members.

4. How will the general public know this is a Rotary-sponsored project? Please provide details, such as media publicity, report for the District news, or display of the Rotary logo.

Each of the individual sign boards will have a 3" x 5" placard that will be placed which identifies that these were provided by the Rotary Club of Sioux City with the Rotary insignia included for broader recognition. In addition to this direct identifier, we will schedule a ribbon cutting upon the opening of the Story Walk. We will also file a report with the district for distribution as they see appropriate.

5. Project Contacts: Two Rotarians must be listed who will provide oversight and management of the project funds. One of these two individuals should enter project into www.matchinggrants.org/district and both should be given Administrative Access for the project there.
