The theater hired a consultant to identify sound issues in the theater that have prevented Seniors and hard of hearing folks from enjoying the theater. Four separate issues were identified. Acoustical wall tiles are needed. Drapery panels behind the screen are needed to prevent echoing. An upgraded center speaker is needed to be compatible with the new sound processor. And a new rear speaker is needed to complete the around sound. These sound quality improvements will help everyone enjoy the theater more but especially our local senior citizen population. The Arnold Rotary Club has always been a supporter of the theater. The Club sponsors one or two movies per year and Rotarians volunteer to sell tickets and concessions. _____
