

ADA Bathroom remodel (revised)

P-4157

Total budget for the project is \$55,840. This grant will cover some of the expense of the project. The remaining cost will come from in-kind labor from Habitat employees, and grants submitted by Habitat and Community Entry Services (CES) to the Community Foundation, a local non-profit foundation supporting local community need. This project is fully funded with the above grants and operating funds of CES. This need was identified by CES a year ago and we stepped in to assist Habitat with these much needed improvements and to cover as much of the material and contracted labor cost as our club could manage.
