

### District Grant Report

Rotary Club: Tustin Santa Ana Rotary Club

Project Title: High School Scholarships

Progress Report       Final Report

1. Briefly describe the project. What was done, when and where did project activities take place, and who were the beneficiaries?  
 Forty percent of all students in Tustin Unified School District live in poverty. Many of these students meet the requirements to attend universities; however, they struggle to pay tuition, room and board, books and supplies, and fees. These scholarships allow students to attend college who would be otherwise unable to attend. Scholarships will be distributed to all four high schools in the Tustin Unified School District.

Applications will be distributed on-line during the month of March. Counselors at each of the high schools will be contacted during that month to help inform students of the process. A selection committee of three Rotarians at each school will review applications and interview candidates during the month of May. Awards will be presented at a regular meeting of the Tustin/Santa Ana Rotary Club on the first Thursday in June. Recipients will also be recognized at their schools' Senior Awards Nights or graduation in June.

2. How many Rotarians participated in the project?

16 Rotarians are involved in the project.

3. What did they do? Please give at least two examples.

1. Create an on-line scholarship form; 2. Contact the school to discuss the scholarship with counselors and other staff, and to arrange for a space and time to meet the applicants; 3. Review all applications to select those candidates who will receive an interview; 4. Interview candidates and select winners; 5. Present the awards at a regularly scheduled club meeting; and 6. Make a presentation to the student at their schools' Award Night or graduation

4. How many non-Rotarians benefited from this project?

In addition to the students and their families, the high schools have benefited from this project for several years.

5. What are the expected long-term community impacts of the project?

TSARC continues to provide the scholarships well into the future. Educated students return to contribute to the community.

6. If a cooperating organization was involved, what was its role?

N/S
