

Quarterly Report P-4832
April 1, 2024

A new budget has been uploaded.

The site for the project has been changed to a summer camp for the Arapahoe tribe. This is a positive change as it will permit more interaction between club members and campers. This change did impact the items that will be purchased and that is reflected on the budget.

The goals and actions for the project remain the same. The location has changed.
