If handwritten, please make sure information is legible. Please answer every question. Incomplete reports will not be accepted.

Club (Primary):	Montpelier	Final Report Date: (do within two months of completion date)	12/09/2014
Other Rotary Clubs:			
Project Title:	Frisbees (Disc Golf Course)		
Progress Report: (Do Within 12 months of grant approval)		Project Completion Date:	11/08/2014

1. Describe your project. What was done, when and where did the project activities take place. If this is a progress report, what remains to be done?

Installed a 9-hole disc golf course at Wells C. Stock City Park. Partnered with the City of Montpelier and the Bear Lake Care Show Board. Installation began on September 20, 2014 with the digging and setting of the tee box frames made of treated 4x4 lumber. Also set the target bases in concrete. Targets installed September 19. Posts for the signs at each tee box happened on September 26. Signs at tee boxes were installed on October 28, and the Bigger sign for the whole course and sponsors was installed November 8. All signage has "The Montpelier Rotary Club" and the Rotary wheel on them.

2. Who were the beneficiaries, how were they impacted, how many were impacted by this project and what humanitarian needs were met?

The project benefits both residents and visitors. Before the tee box signs were installed we had players coming from the motel across the street almost every evening. Locals have been observed using the course, including High School PE classes. A local store now carries sets of discs because of demand.

3. How many Rotarians participated in the project and what did they do? Please give at least two examples, not including the financial support provided to the project.

8 of the Club's 10 members helped on one or more of the work days. The sod had to be dug to place the tee box frames, the tee box frames had to be bolted together, the holes for concrete around target and sign posts were dug, concrete mixed, posts installed and plumbed. Targets were put together and installed. Signs were bolted to sign posts. The local weekly newspaper did several stories on the course including pictures and recognition of the Rotary Clubs leadership.

4. If a cooperating organization is involved, what is their role?

The City provided oversight on facility locations, the Car Club provided \$1000. The County provided a couple of teen agers who needed public service hours.

Disc Golf course opens

Rotary Club installs new free attraction

The Montpelier Rotary Club has just finished installing a new Disc Golf Course at the Wells C. Stock Park. This project was funded by a grant and funds from the Rotary Club. There were many hours of volunteer time put in by members of the club and the community to get this new course set up. Most of the finishing touches to the course were done last Tuesday, except for a few signs that they expect to have soon. The course is now open to the public and the Montpelier Rotary Club invites all citizens to come and try it out. This is a great "free" sport that can be enjoyed by individuals, couples, families and friends.

There is an aerial map showing the layout of the course. If you have any other questions about the disc golf course, please feel free to contact a Rotary member.

Some local businesses have discs available for purchase. So grab a family member or friends and go have some last minute fun before the snow flies.
