Project Title:	Assistance to Shepard's Home		
Progress Report: (Do Within 12 months of grant approval)	N/A	Project Completion Date:	March 27, 2014

1. Describe your project. What was done, when and where did the project activities take place. If this is a progress report, what remains to be done?

This project purchased a computer for the Shepherd's Home in McCall. This computer is being used by the residents to increase their skills and give them opportunities that other children would have in a normal home environment. The Shepard's Home relies solely on donations and this computer will assist the residents to be more successful in their ability to excel in their schoolwork.

2. Who were the beneficiaries, how were they impacted, how many were impacted by this project and what humanitarian needs were met?

The Shepard's Home nurtures and protects children in need by providing a loving family home. The home services 6-10 children. The home serves publicly or privately placed children of all ages. This project enabled Rotarians to advance goodwill and support of the educational needs of the children at the home. These children come from abused and neglected environments and have very little.

3. How many Rotarians participated in the project and what did they do? Please give at least two examples, not including the financial support provided to the project.

Several Rotarians work with the Shepard's Home on a weekly basis. We worked with a local company on the purchase of the computer. The club worked with the local newspaper that discussed Rotary's donation of the computer and how it will be used.

4. If a cooperating organization is involved, what is its role?
