Dear Judy,

Thank you for inviting us to participate THE ROTARY CLUB OF POWELL reading program! As you witnessed, our students were very excited for the bike give-away at the awards assembly. As you know, we ran this event over the Christmas break. We had about 40 student participants who all met the goal of at least 30 minutes per day during the break. That is about 12% of our student population. It's a start!!

It was very heartwarming to notify the winner's parents prior to the giveaway and hear them say, "Oh, good! He worked so hard and really wanted that bike!" The other great part of this was that the bikes also went to two students who not only wanted a bike, but also needed a new bike.

We would love to do this program again -- possibly for our summer reading program where our participation numbers are higher and incentives and prizes are always welcome. Please keep us in mind.

Last, thank you for your service to community efforts such as this, we love having a community partnership in an area such as reading and look forward to the next opportunity.

Sincerely,

Scott Schiller
Principal
