

District Grant Report

Rotary Club: Of Anaheim Hills

Project Title: Every 15 Minute Program

Progress Report Final Report

- Briefly describe the project. What was done, when and where did project activities take place, and who were the beneficiaries?
The project was on April 23-24 at Canyon HS Anaheim Hills. The program was for Junior & Seniors only to bring to reality the dangers of DUI just prior to prom. A deadly car accident was recreated at the HS. Students. Involved were injured and some had died. Local fire, police, hospitals and a mortuary participated in this realistic event. The following day an assembly and funeral service were held where letters by the departed students were read aloud by their parents. We would like to think that if one life was saved we did our job.
- How many Rotarians participated in the project? 7 Club members
- What did they do? Please give at least two examples.
We helped set up some of the props for the crash scene. We erected Tombstones of those who died on campus. We monitored the students who were "the living dead" during the accident scene. We served as greeters during the assembly
- How many non-Rotarians benefited from this project? If you consider the students & others present it would be almost 1000.
- What are the expected long-term community impacts of the project?
That the visual and emotional involvements resulting from DUI may prevent the loss of life any time in the future.
- If a cooperating organization was involved, what was its role?
The PTSA for Canyon High School coordinated the entire event and provided additional funds and donations for the event.
