RE: Smiles of Cabo Rotary Cleft Clinic Thu, April 12, 2012 3:55:18 PM

I enjoyed talking with each of you this morning. I wanted to try to firm up the details over this next week before our arrival on the 22nd to Cabo. the current list of anticipated team members and arrival/hotel details are as follows:

NAME Position Arrival Flight # Arrival Time/Airport Departure Accommodation Hotel

1. Dr. Jeff Moses	Team Leader	AlaskaAir AS232 SUN april22 @1:27pm (SJD) SUN april29 2:20pm Los Cabos:	Villa del Palmar Conf.#143
2. Maribel Vargas de Moses	Patient Coordinator	AlaskaAir AS232 SUN april22 @1:27pm (SJD) SUN april29 2:20pm Los Cabos:	Villa del Palmar Conf.#143
3. Dr. Nick Pollard	Anesthesiologist	AlaskaAir AS232 SUN april22 @1:27pm (SJD) WEDNESDAY Los Cabos:	Villa del Palmar Conf#143
4. Dr. Sharon ("Ron") Aronovich	Craniofacial Surgeon	AlaskaAir AS232 SUN april22 @1:27pm (SJD) UNKNOWN Los Cabos:	Villa del Palmar Conf#114
5. Sr. Victor Gonzales Tecate	Rotarian adviser	tentative arrival unknown at this time unknown Los Cabos:	Villa del Palmar 114
6. Sra.Teresa Gonzales Tecate	Rotary support	tentative arrival unknown at this time unknown Los Cabos:	Villa del Palmar 114

Also, as I was speaking with you about today, Dr. Leon, would you please ask Dr. Avalos if we could use his private hospital facility to perform at least one or two simple surgical-lip cases? If you could also ask your anesthesiologist if he would donate his time and skills for this clinic, we should be able to do a good test for the upcoming clinics for the future. We will have a good idea with the screening clinics ability to draw a good patient flow from this initial free clinic. and I agree with you that this would be good to run on the First Day (**MONDAY**) at Dr.Gabriel Dorantes' (your Rotary club's Oral Surgeon?) dental office. After we have finished the screening and scheduling, and compiled the clinical records, we could take a visit to the private hospital of Dr Alex Avalos and see how we could work there later in the week and introduce ourselves all around.

Tuesday and Wednesday we would continue with the Screening if there are sufficient new-comers and/or dedicate ourselves to the "political introductions and permissions" for all of the governmental and hospital health officials requiring the **COAT and TIE approach** as necessary.

Oscar, I know that you are currently the club's secretary and also the President-Elect, so perhaps you would be the best one to handle the arranging a "get-together" with your Rotary Club either SUNDAY, MONDAY or TUESDAY EVENING to receive a "ONE HOUR" PowerPoint presentation about the Smiles International Foundation and our projects and how your Rotary Club participation will be involved with the successful ongoing nature of this endeavor. I would also like to have a public relations opportunity at this meeting to present you club with the results of the District 5340 Grant -70 and obtain a photo for both of our district's International Projects Newsletters. Thank you for helping us with this procedure. We will be needing you to provide an LCD projector and a projection-screen as well as meeting room sufficient for the comfort of your club members and their wives for this. You should pick the location and the venue. I will be happy to contribute personally for the light-food and refreshments so as not to add to your weekly budget expenses of an extra meeting that week.

Oscar, that will leave THURSDAY (your club's normal meeting day, yes?) for your club's travel to Los Moches for the District Conference. Our team then can arrange to have the children's surgery either on THURSDAY or FRIDAY morning for the selected case or two if possible. I anticipate and have "floated the balloon" to our team for an OCTOBER return for the full-on surgical clinic and to begin our full longitudinal project according to the standards set by the Smiles International Foundation.

We are looking forward to meeting with you all in two weeks and developing a life-long personal friendship working in -RotaryService Professionally.
In grateful Service, Jeff

Jeffrey J. Moses D.D.S., F.A.A.C.S.
