The Mobile Pantry provides fresh produce and other nutritious food directly to families and individuals in Orange County who struggle to make ends meet. The Mobile Pantry truck is a refrigerated beverage truck converted for use by Second Harvest. With each delivery, the truck transports at least 5,000 pounds of fruit, vegetables, and dry goods directly to the communities where low-income individuals live. Monarch Beach Sunrise Rotary and Second Harvest partners to participate in the Mobile Pantry program to distribute food directly to those in needs. These partnerships give the clients the opportunity to select the food they need most, and charities avoid the burden of food storage, refrigeration, and transportation.

The Mobile Pantry supplies a crucial lifeline to the hungry in Orange County. One truck feeds 150 families. This program prevents over a million pounds of produce from being destroyed while those in need face another day without food.

We need to raise \$1500.00
