

June 3rd, 2015

To the Burkburnett Rotary Club,

We at Grace Ministries thank you so much for the \$5000 grant. As you know, we hit oil at the time of drilling and it has skewed the plans for water. However, that said we will be using water saved from our churches and many business in the community to save and reuse water. I know that Rotary knows much about the precious commodity of water.

Therefore, the fence has been contracted for installation for the middle to later part of June. Our bill is approximately \$7500.00 dollars. Thanks to the Rotary Club this community will see that the first community garden has begun. It is our hope that there will be many more gardens for those citizens that enjoy gardening or those that are food deprived can now eat healthier.

Your check will be deposited during the week of June 7th! I will keep you informed of the progress.

Sincerely,

Mel Feller

Grace Ministries Executive Director
