Project Title: Youth Literacy Project

Progress Report  Final Report

**Project Description**

1. Briefly describe the project. What was done, when and where did project activities take place, and who were the beneficiaries?

Purchased age specific dictionaries, thesaurus' and "early reader" picture books for pre-school, kindergarten, 1st, 7th & 8th grade students at our elementary and junior/senior high school. Due to major changes (re-structure at the schools and new vision of the newly promoted principal) earlier in March, plus previously scheduled spring breaks, distribution was delayed until September 9, 2015. Distribution took place in the classrooms with Rotarian interaction.

2. How many Rotarians participated in the project? 9 of 12

3. What did they do? Please give at least two examples.

Began by sitting in on committee meetings to make our decisions and fast track the grant application process. Met with school leadership to determine exact needs. Researched product options and best pricing; made the purchases, drafted press releases and distributed the books September 9th with media present.

4. How many non-Rotarians benefited from this project? 320

5. What are the expected long-term community impacts of the project?

By all indications, school officials and community leaders are all in agreement that starting our kids into reading and other literacy programs at earlier ages will increase reading and comprehension skills much quicker and better prepare them for more difficult curriculum as they progress through their more formal educational processes.

6. If a cooperating organization was involved, what was its role?

Laughlin Jr/Sr High School and Bennett Elementary School Principal Dawn Estes engaged us with her ideas and concepts as guest speaker at one of our meetings in early March. We then worked with her to develop a "menu" of the type books and the target grade levels in desperate need of materials not provided by the school district.
