

Ward Lake Picnic Shelter update

April 13, 2016

Submitted by Rosie Roppel

Bruce King is working on getting the receipts together and they will be put up online. The project will be done by June.

April: Two Saturdays of moss scraping, pressure washing inside and out and raking and sign scrubbed. There has been a lot of heavy equipment and lifts used. I am not sure how much "in kind" but a lot of folks were there. The project looks great and people have worked hard.

I am not sure what else they will do to finish the project or how much money has been used. Bruce and I have talked and he will get receipts to me to scan to submit. I will update.
