Project Title: Food 4 Kids Van Retrofit

## Project Description

1. Describe the project. What was done, when, and where did project activities take place?

The grant was used to purchase and install the holding racks in both vans. These racks allow Foods 4 Kids to stack meals that are stored in acrylic cold storage pans, stainless hotel pans, or milk crates.

The racks prevent the pans from sliding or slipping out of the ends. They are able to double up on each rack with no issues whatsoever giving them the ability to store 12 pans per trip. The racks make the deliveries faster, easier, and much more professional.

The grant was also used towards the wrap installed on the gray van. It is colorful, informative, and definitely promotes our free meals for children.

2. How many people benefited from this project?

100's of children (in time 1,000's)

3. Who were the beneficiaries, how were they impacted by this project, and what humanitarian need was met?

Children in the Mat-Su who are in need of meals. The children were able to get free lunches. Because of the shelving, more meals were delivered impacting more children than prior to the retrofit.

4. How many Rotarians participated in the project? 4

5. What did they do? Please give at least two examples, not including financial support provided to the project.

Handed out the meals and participated in hands on activities with the children giving them a fuller experience.

6. If a cooperating organization was involved, what was its role?
