

I thank you so much but a lot for the opportunity you have gifted [given] me to be able to have a vision exam. My eyes used to burn. Also, I give you thanks for the drops. I am using them every day. Sometimes they still burn but not nearly as much as before. For me this is very good. At the end, I say THANK YOU!

With affection,

Noé

Note: Noé is one of our youngest students and from an extremely remote part of the district.
