Reference: Grant 2015-16

Dear Suzanne

We deeply appreciate the financial contribution of \$2,000 from the Rotary Club of McCall to PLCA4Kids (i.e. Payette Lakes Community Association, Inc.) to support our STEM programs and other activities at our after school program held in the Barbara R. Morgan Elementary School. The funding received will be and has been used to buy the equipment, transportation, supplies and snacks used for the activities in our programs including the Club Invention program – Physics In Motion.

Our programs are open to any student within the McCall Donnelly School district boundaries, whether the students are home schooled, in private or public schools. Of the students enrolled in our after school program, approximately ten pupils are representative of single parent households. The programs are designed to enhance the lives of youth and to promote health, safety, academic success and character development.

Thank you for caring enough about the children of McCall to make a contribution to our organization. Please check our website “plca4kids.org” to view the pictures of our program.

Sincerely,

A handwritten signature in black ink that reads 'Ira George Pool'.

Ira George Pool, President
Payette Lakes Community Association, Inc.
