b)

5. What are the expected long-term community impacts of the project?

a) Orange High students had no place to sit in front of the theatre; these six benches will be great use to them in the future. All previous benches were either broken/stolen over the years and students ended on sitting on the walls. The planter was old and not well maintained. The new drought resistant plants will last longer and has a good look to it as well. The Orange Paint on the front wall brightens up the color to match the school colors.

b)

6. If a cooperating organization was involved, what was its role?

a) Home Depot – they donated about a 1/3 of the materials for the project.

a) Orange High School - The school contributed \$2000 toward the cost of the benches

a) Panera Bread – Continental breakfast and coffee was provided for the volunteers and Panera did not charge tax on this cost.
