Dear Sir/Madam

Re: Mobile Health Clinic- Kenya

I wish to express my gratitude towards your support in this noble project. I do appreciate the continued partnership between the Ministry of Health and Rotary Club of Gilgil. In the past we have partnered in distribution of morbidity equipments and de-worming project in our local schools.

The Ministry of Health endorses the Mobile Medical Clinic – Kenya and will support in the following ways:

- Offer free trainings to the community health workers
- Offer free vaccines, family planning medicines and devices
- Second a nurse and a community health worker to work full time in this project once the project is funded.
- Refer volunteers and interns
- Supply free medical supplies and drugs
- Offer free consultancy services during purchase of the vehicle and equipments.

I also wish to certify that Trinity Mission Dispensary is registered by the Ministry of Health as a non for profit medical facility. The mobile health clinic will be carried under the Trinity Mission Dispensary.

Thank you once again for supporting this much needed services in our villages.

Yours Faithfully,

Dr Esther Kinyeru
