

Arda 11 years old, going to primary school...

Unfortunately, he didn't know how to read and write and his mathematic was very low than the level it should be when he first came to IZOV for private education support... Much more important than that, was his silence and his intravert attitude that touches to one's hearth...

## We wish you could get to know Arda, Our Dear Arda today!

First of all, he had shown a great improvement in reading and math's. Besides, he is really sociable and can express himself at much higher level.

His mother is really relieved after all!

After a while, he is going to continue his journey in education without our assistance.

But we know,
he will visit his school often,
inform us about his
evolution,
and involve us in his
happiness too,
like his other friends

We, as IZOV are a great, beautiful family...

We drive our disabled children to our school from many neighborhoods of the city for free with our own school bus,

We support every children from any age in different programs and in completely separated groups.

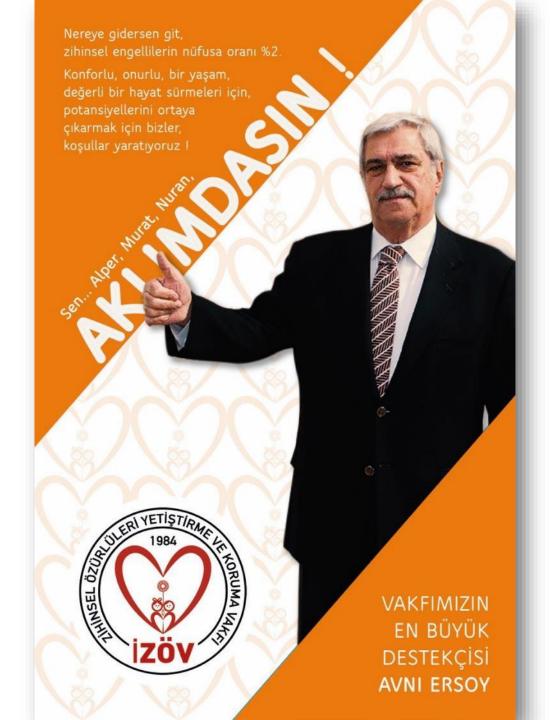

And now, we would very much like every citizen of our city, to know **IZOV** as one of the most important rehabilitation centers of Izmir with our great physical infrastructure

founded on a 2-acher property in the central city, with our workshops and experience of 35 years ...

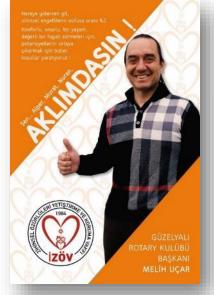

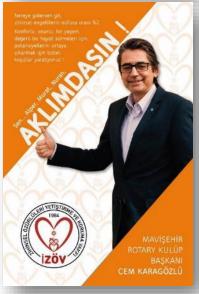

Our biggest supporter is

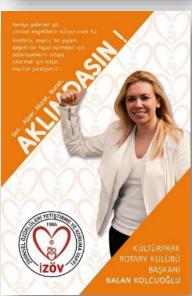

## the ERSOY FAMILY

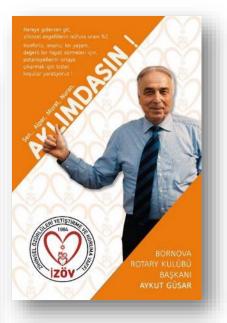

Who held our hand strongly in our hardest days and which we had given their grandfather's name to our school too...

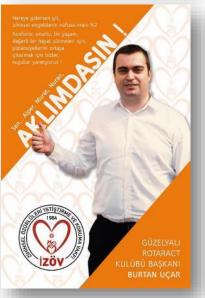

We invite and request their support from all of the most important NGO's and foundations of our city, starting with the Grand Municipality, the Rotary Clubs and the Lions Clubs...

The workshop products of our children will soon be available for online sale with the big support of a Rotaract Club!

Our biggest dream is to establish a steady income to both our foundation and to our students by streamlining the production in our workshops to our online store!
