

7 December 2017

Rotary Clubs of Cheyenne
Daniel Brownell
Assistant Governor District 5440
501 E. Pershing Blvd
Cheyenne, WY 82003

Subject: Global Grant

The Nature Conservancy of Wyoming is focused on clean and abundant water in Wyoming for plants, animals and people. The Crow Creek Revival project to install a pilot storm drain water filtration system "Gutter Bins" in central Cheyenne is a worthy effort and one that the Conservancy supports. We especially commend Rotary International and its local affiliates for their leadership in providing safe drinking water.

Sincerely;

Brent Lathrop
SEWY Program Director
