Project Description

Target Community

- Underprivileged single mother households from the Juárez / El Paso area.

Overview

- 25 single mothers from the Juárez / El Paso Area will be provided with scholarships to study a three year nursing program in the FEMAP Nursing School.

Strategic Partner

- Fundación Mascareñas, a prestigious local foundation, and Rotarians from RC Juárez Integra will be in charge of monitoring the progress and evaluating the development of all scholarship recipients.

Sustainability

- Upon graduation these 25 families will be able to address their economic needs and contribute to the development of their communities.

Learn to Heal

Areas of Focus

Disease prevention and treatment

Nursing students understand better the health issues and concerns afflicting the bi-national border community and have the skills to be part of the solution.

Maternal and child health

A better health educated mother, will nurture healthier children and families.

Economic and community development

By having a nursing career, these women will have better and well-paid jobs.
