

I am delighted to report that we have treated 2 children so far under the Global Grant! Ten year old Jessica had successful surgery performed by Dr. Sherard Little and his team. A very happy Jessica who is in Grade 5 was discharged to join her 2 brothers and a sister.

The transportation arrangements for her follow up appointment was handled by the Spanish Town Rotary (our host club) in Kingston, Jamaica.

Six year old J'Adore Bedasse is the 2<sup>nd</sup> child treated. He lives in Portmore with his mother and 3 year old brother and has just graduated from kindergarten. Once again our host club has helped (Sandi) his mother receive assistance with transportation and food. She is extremely grateful for to all of you for giving her son the gift of life.

As soon as the cath. Lab is completed in a few month's time, many more surgeries and pictures will follow.

**An enormous THANK YOU to you and all of the Rotarians who work so hard to help us mend little hearts in Jamaica and the Caribbean.**
