Project : GRAM MACHRA HAPPY SCHOOL

About : The School

India is a Country of Villages and Agriculture, we need development in the villages of India hence we choose the venue of project at Village Machara nearly 15 Kms from the City Meerut. The name of the school is Ch. Prem Nath Singh Kisan Vidhyalay Inter College. This school is from 6th Std to 12th std. is situated on the interior and off route from Meerut-Garh Highway, surrounded by many villages in circumference of 5 Kms. This School's bulding was built in 1942 having 40 class rooms and 6 Laboratory There are 1700 students studies in the school from where 1000 are Girls and 700 are Boys.

Facilities:

1 Class Rooms: This school has 40 Class Rooms but the condition of the classes is as poor as it is not been useful to give a good education. Lot of Furniture is in breakage condition. Students are studying under worst conditions.

2 Hall : This school is having a conference hall with a capacity of 200 students to sit but due to lack furniture the students are allowed to sit on the ground.

3 Toilets: This school is having a strength of 2000 Students but the students studying are only 1700 because of poor Toilet facilities. It Should be noted that only 6 Toilets for Girls and 5 For Boys are available in School and the condition of Toilets is Very Worst.

4 Drinking Water: This school is having no facilities for drinking water and students are forced to drink raw ground water through “Hand Pump”. It should be noted that the ground water of this area is very much adulterated and infected by Heavy Metals and Bacterial infections. Even a Health team of Govt. had also given report about the ground water saying the adulteration is causing “Cancer” disease.

4 Library : This school is having a Library Room having only 4 Racks with few books. No Library furniture or studying facilities are available, even it is now converted in generator Room.

5 E-Learning: This school does not having any E- Learning Facilities. Yet one computer Lab is available there with only 13 computers but are very old system without proper softwares installation. According the capacity of students the Number of computer are not useful.

Now, we the Rotarians feel that we must make some efforts to “GIVE” something worth to society so that the things may be change. For the purpose of Good Sake and development of Society we want to serve with Rotary and Humanity. Hence we made a Project to fulfil the needs of the particular School that is “Ch. Prem Nath Singh Kisan Vidhyalay Inter College,Vill- Machra, Meerut

We have made an Aproximated cost of Project as below
