Project:- Facilities at Child Observation Home (Remand Home), Aurangabad
Registered under WCS (W05702) & Matching Grants

Project Chairman:- Rtn. Sanjay Kulkarni (Primary Contact Person for project)

Avenue:- Human Development / Community Service / World Community Service
It is a Continuous project.

Venue:- Child Observation Home (Remand Home), Aurangabad, Maharashtra, India

Object:- To provide facilities at Observation Home Children Home (Remand Home),
Aurangabad.

Description in Brief:- Our aim is to train these children with self-respect and
confidence, social aspect, with some vocational courses, as well as to provide them basic
infrastructure.

We have registered this project under WCS project number is W05702. You can visit our
web site for all details www.rotaryclubaurangabadwest.org

Need of the children

- Food
- Proper bed system
- Proper clothing
- Timely medical aid
- Light system
- Educational material
- Educational Tours
- Picnics
- Vocational Training to create income source
- Child counseling

What we have planned?

- Food
Food is the basic need of human being to keep alive. Our club has decided to
celebrate Club's Charter day at this home by donating food for all the children.

Also we are motivating club members to celebrate their family member's
birthday, anniversaries and Remembrance Day at this home by donating atleast
one meal.

- **Bunker Bed System**
At present all children are sleeping on the floor. There is cot system. Therefore bunker bed system will occupy less space with the facility to store their language safely.
- **Mosquito net**
It is necessary to keep them away from mosquito bite and avoid any further disease.
- **Clothing**
As all the children are from with very poor back ground they won't have proper clothing when they reach to this place. Every year majority of children get changed from this place. Therefore old cloths will be available for next year and that only regarding school dress.

These children requires proper

- Proper set of school dress
- 1 dress for remand home
- A pair of under garments
- Towel
- Shoes / sox
- Chappal

- **Medical checkup**
To nourish these young children it is necessary have regular medical checkup and proper medicines or vaccination to build them strong.

Quarterly complete medical checkup with medicine is planned for the same. The specialist of each area like ENT, Eye, Pediatrician, etc will check children thoroughly.

- **Light system**
In this region there is problem of load shedding therefore to provide them proper light system as well as to minimize electricity bill that is recurring expenses of the organization it is recommended to install solar street light and solar kandil.
- **Educational material**
As children are admitted with nearby school as per their age they need proper
 - School books
 - Note books
 - School bag
 - Compass
- **Fun n joy**
Apart from their regular studies we have planned for educational trip and picnic for these children which will be of one day including food.

As well as different kind of competitions will be conducted in the campus with attractive prizes.

- Training for earn
With the help of technical Education, Govt. of Maharashtra we are trying to provide vocational training to these children as per their age group to make them independent to earn when they will be out of this home.

As per the age group different courses are under planning like

- Two wheeler maintenance
 - Welding
 - Plumbing
 - Civil work
 - Potato chips manufacturing
 - Etc.
- Child counseling
The prominent speaker from the region who is expert in child Psychology will visit the home and discuss with them and try to motivate them with positive side of life.

Except bunker bed system, mosquito net, solar light system all projects will be continued for next year and years together.

Child counseling is already started.
