Re: Community Champions

Dear Rotarians,

We work with community partners to create change in our communities. Our team collaborates with local nonprofits and service groups to further their mission to better the lives of children.

We look forward to working with Fullerton South Rotary during the community clean up event at the Arboretum. In the past, we have partnered with community groups to make a real impact in the communities we serve. This year will be no different.

Please accept our letter of participation for the 2017 service year.

Thank you,

Amy Caw
