

Final Report 2nd grade Literacy project

In May of 2018, members of the Cheyenne After Rotary Club, visited the following schools:

- Afflerbach Elementary
- Rossman Elementary
- Arp Elementary
- Cole Elementary
- Alta Vista Elementary.

Rotarians met with the 2nd grade classes and presented each student an activity book with an 4 way test book mark. The Rotarians taught about the how the 4 way test can help the students at recess and in the class room. A soft cover book was also presented to each teacher and a hard cover book given to each library. We distributed over 220 books to these schools.

We felt the project was a success and our goal is to expand it over the next year to include two more schools.
